Homework Policy

"I have come that they may have life, and have it to the full" John 10: 10

Principles

Well-designed homework will play a valuable part in a student's education. It offers opportunities for work which is independent of the teacher. Homework tasks will exploit materials, new technologies and sources of information which are not always accessible in the classroom. Homework will take many forms and is an essential complement to the work done in lessons. It is relevant to all KS3 (excluding PE), KS4 and Post 16 courses and plays a vital part in enhancing students' learning, reinforcing what it is done in the classroom, encouraging them to take increased responsibility for achieving their goals and increasing their chances of success.

Purpose

Homework is set to provide students with opportunities to:

- Extend, develop and practise what was learned in class.
- Prepare for work in class.
- Acquire the ability, confidence and organisational skills to work independently.
- Work at their own pace and ability level, particularly in tackling longer term projects.
- Make use of resources and new technologies outside of the School.
- Strengthen School-Home links in the learning process.
- Revise and reinforce skills and knowledge learnt in the class work.
- Develop their literacy and spelling

Homework also helps the teacher to:

- Check that students understand class work.
- Assess students' potential necessary for reviews and examination entry.

Homework will take **many different forms** including: planning, preparing, revising, learning, reading, speaking, designing, drawing, collecting, re-drafting, improving, researching information and written tasks to consolidate or extend learning.

Some homework tasks will be specific short term tasks related to the topic at that time and others will contribute to longer term tasks such as projects, portfolios of work and coursework.

Facilities and Resources

The School will provide a learning resources area including library facilities during the school day and after school so that students can access resources and suitable conditions for doing homework.

When students join the School, parents are given advice and asked to undertake to provide suitable conditions at home for doing homework.

The student planner is the means by which homework is recorded by the students and monitored by the teachers, the tutor and parents.

Practice

It is expected that all teachers set homework for their classes (except KS3 PE) and that it is of an appropriate level and length for the students concerned. Guidelines will be given by the curriculum area.

As a general rule:

- KS3 classes should be given between 30 minutes and 45 minutes of homework per subject, in accordance with the homework timetable.
- KS4 classes should be given between 45 minutes and 60 minutes of homework per subject, in accordance with the homework timetable.
- KS5 should have a minimum of 3 hours of homework per subject, in accordance with the homework timetable.

Wherever possible, students should be given a regular day on which homework is issued so that they can plan their time accordingly. Students should be given several days to complete the homework.

Effort grades to be awarded to homework pieces using the 1-4 scaling which is used for AP data collection:

1. Always completed and to a high standard showing a great deal of effort
2. Completed on time and to a good standard showing effort
3. Often not completed on time or often completed to a poor standard reflecting some effort
4. Rarely completed on time or usually completed to a poor standard reflecting little or no effort

If a class is split between two or more teachers, they should arrange between themselves who is responsible for setting and marking of homework. The Head of Faculty should be aware of the arrangement.

Merits are awarded using the Red R Stamp and linked to the 5 R's: Reflection, Reasoning, Resilience, Responsibility and Resourcefulness.
